INTERPLAST

We shall comply with (OHS&E) Occupational Health, Safety and Environment legislations, laws, rules, compliance obligations, regulations and other requirements in line with National and International standards by providing requisite awareness and training to our employees.

Implement and maintain internationally recognized Health, Safety and Environment standards of ISO 45001 Occupational Health and Safety Management Systems and ISO 14001 Environmental Management Systems. Ensure continual improvement by identifying risks and opportunities, OHS&E performance monitoring and evaluation.

Resources shall be used in a safe & sustainable manner to eliminate hazards, reduce OHS risks, prevent pollution, protect environment, guard biodiversity and ecosystems by reducing waste impacts associated with our activities during the course of manufacturing the goods and services.

Provide a healthy working environment for the prevention of work-related injuries and unsafe surroundings by identifying hazards, assessing the risks & its effects through active communication, consultation, worker participation and employing adequate controls in shop-floor to enhance OHS&E management system effectiveness for the benefit of internal and external interested parties.

Our policy is to establish and practice OHS&E norms and continually monitor the achievements of planned goals of occupational health, safety and environmental objectives.
